

Aduro Biotech to Host Investor Event Featuring ADU-S100 (MIW815) Clinical Data Presented at the 2019 American Society of Clinical Oncology Annual Meeting

May 15, 2019

BERKELEY, Calif., May 15, 2019 (GLOBE NEWSWIRE) -- Aduro Biotech, Inc. (NASDAQ: ADRO), a clinical-stage biopharmaceutical company focused on developing therapies targeting the Stimulator of Interferon Genes (STING) and A Proliferation Inducing Ligand (APRIL) pathways for the treatment of cancer, autoimmune and inflammatory diseases, today announced that the company will host and webcast an investor event on Monday, June 3, 2019 at 6:30 am CDT in Chicago, IL. Guest speaker, Dr. Funda Meric-Bernstam of MD Anderson Cancer Center, is a principal investigator for the Phase 1 study of STING pathway activator ADU-S100 (MIW815) in combination with spartalizumab (PDR001), Novartis' investigational anti-PD-1 monoclonal antibody, in patients with advanced/metastatic solid tumors or lymphomas.

To access the live webcast and subsequent archived recording of this and other company presentations, please visit the investor section of Aduro's website at www.aduro.com. The archived webcast will remain available for replay on Aduro's website for 30 days.

Details of the ADU-S100 (MIW815) ASCO oral presentation are as follows:

Abstract 2507:	Phase 1b study of MIW815 (ADU-S100) in combination with spartalizumab (PDR001) in patients with advanced/metastatic solid tumors or lymphomas.
Presenter:	Dr. Funda Meric-Bernstam, MD Anderson Cancer Center
Oral Abstract Session:	Developmental Immunotherapy and Tumor Immunobiology
Date/Time	Sunday, June 2, 2019, 8:00 AM – 11:00 AM CDT in Hall D2
/Location:	Dr. Meric-Bernstam's presentation: 10:12 AM – 10:24 AM CDT

To view this and other Aduro abstracts, please visit the ASCO website located at <http://abstracts.asco.org/>.

About Aduro

Aduro Biotech, Inc. is a clinical-stage biopharmaceutical company focused on the discovery, development and commercialization of therapies that are designed to harness the body's natural immune system for the treatment of patients with challenging diseases. Aduro's product candidates in the Stimulator of Interferon Genes (STING) and A Proliferation Inducing Ligand (APRIL) pathways are being investigated in cancer, autoimmune and inflammatory diseases. ADU-S100 (MIW815), which potentially activates the intracellular STING receptor for a potent tumor-specific immune response, is being evaluated in patients with cutaneously accessible metastatic solid tumors or lymphomas. BION-1301, a fully blocking monoclonal antibody that blocks APRIL binding to both the BCMA and TACI receptors, is being evaluated for the treatment of IgA nephropathy. Aduro is collaborating with a number of leading global pharmaceutical companies to help expand and drive its product pipeline. For more information, please visit www.aduro.com.

Cautionary Note on Forward-Looking Statements

This press release contains forward-looking statements for purposes of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include statements regarding our intentions or current expectations concerning, among other things, the potential for our therapies and our ability to expand and drive our product pipeline alone or with collaborators. In some cases, you can identify these statements by forward-looking words such as "may," "will," "continue," "anticipate," "intend," "could," "project," "expect" or the negative or plural of these words or similar expressions. Forward-looking statements are not guarantees of future performance and are subject to risks and uncertainties that could cause actual results and events to differ materially from those anticipated, including, but not limited to, early or preliminary clinical trial results may not be predictive of future results, our history of net operating losses and uncertainty regarding our ability to achieve profitability, our ability to develop and commercialize our product candidates, our ability to use and expand our technologies to build a pipeline of product candidates, our ability to obtain and maintain regulatory approval of our product candidates, our ability to operate in a competitive industry and compete successfully against competitors that have greater resources than we do, our reliance on third parties, and our ability to obtain and adequately protect intellectual property rights for our product candidates. We discuss many of these risks in greater detail under the heading "Risk Factors" contained in our quarterly report on Form 10-Q for the quarter ended March 31, 2019, which is on file with the Securities and Exchange Commission. Any forward-looking statements that we make in this press release speak only as of the date of this press release. We assume no obligation to update our forward-looking statements whether as a result of new information, future events or otherwise, after the date of this press release.
