

## **Aduro Biotech to Host Conference Call and Webcast Featuring BION-1301 Data Presented at the 57th ERA-EDTA Virtual Congress**

May 19, 2020

BERKELEY, Calif., May 19, 2020 (GLOBE NEWSWIRE) -- Aduro Biotech, Inc. (NASDAQ: ADRO), a clinical-stage biopharmaceutical company focused on developing therapies targeting the Stimulator of Interferon Genes (STING) and A Proliferation Inducing Ligand (APRIL) pathways for the treatment of cancer, autoimmune and inflammatory diseases, today announced that the company will host a live conference call and webcast on Monday, June 8, 2020 at 1:00 pm PDT to report data in healthy volunteers from the ongoing Phase 1 study of BION-1301 for the treatment of IgA nephropathy (IgAN) as well as data from long-term nonclinical studies. Members of the Aduro executive team will be joined by Dr. Jonathan Barratt, the Mayer Professor of Renal Medicine at University of Leicester.

**Details of the BION-1301 abstracts accepted as poster presentations are as follows:**

- Results of a Phase 1 Trial to Investigate the Safety, Tolerability, Pharmacokinetics, and Pharmacodynamics of BION-1301 in Healthy Volunteers
- BION-1301, a Fully Blocking Antibody targeting APRIL for the Treatment of IgA Nephropathy: Assessment of Safety, Toxicokinetics and Pharmacodynamics in Long-Term Nonclinical Studies

For more information, please visit the ERA-EDTA website located at <https://www.era-edta.org/en/virtualcongress2020/>.

### **Conference Call and Details**

To access the call, please dial (844) 309-0604 (domestic) or (574) 990-9932 (international) and provide the Conference ID 8568238 to the operator.

To access the live webcast and subsequent archived recording of this and other company presentations, please visit the investor section of Aduro's website at [www.aduro.com](http://www.aduro.com). The archived webcast will remain available for replay on Aduro's website for 90 days.

To access a recording of the conference call, please dial (855) 859-2056 (domestic) or (404) 537-3406 (international) and enter the Conference ID 8568238. The conference call recording will also be available for 90 days.

### **About Aduro**

Aduro Biotech, Inc. is a clinical-stage biopharmaceutical company focused on the discovery, development and commercialization of therapies that are designed to harness the body's natural immune system for the treatment of patients with challenging diseases. Aduro's product candidates in the Stimulator of Interferon Genes (STING) and A Proliferation Inducing Ligand (APRIL) pathways are being investigated in cancer, autoimmune and inflammatory diseases. ADU-S100 (MIW815), which potentially activates the intracellular STING receptor for a potent tumor-specific immune response, is being evaluated in combination with KEYTRUDA® (pembrolizumab), an approved anti-PD-1 monoclonal antibody, as first-line treatment for patients with recurrent or metastatic squamous cell carcinoma of the head and neck (SCCHN). BION-1301, a first-in-class humanized IgG4 monoclonal antibody that fully blocks APRIL binding to both the BCMA and TACI receptors, is being evaluated in IgA nephropathy. Aduro is collaborating with a number of leading global pharmaceutical companies to help expand and drive its product pipeline. For more information, please visit [www.aduro.com](http://www.aduro.com).

### **Cautionary Note on Forward-Looking Statements**

This press release contains forward-looking statements for purposes of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include statements regarding our current intentions or expectations concerning, among other things, the potential for our technology, continued advancement of our programs, timelines for our programs, including expected timing for presentations of clinical and non-clinical data and collaborations with leading global pharmaceutical companies to help expand and drive our product pipeline. In some cases, you can identify these statements by forward-looking words such as "may," "will," "continue," "anticipate," "intend," "could," "project," "expect" or the negative or plural of these words or similar expressions. Forward-looking statements are not guarantees of future performance and are subject to risks and uncertainties that could cause actual results and events to differ materially from those anticipated, including, but not limited to, our history of net operating losses and uncertainty regarding our ability to achieve profitability, our ability to develop and commercialize our product candidates, our ability to use and expand our technology platforms to build a pipeline of product candidates, our ability to obtain and maintain regulatory approval of our product candidates, our ability to operate in a competitive industry and compete successfully against competitors that have greater resources than we do, our reliance on third parties, and our ability to obtain and adequately protect intellectual property rights for our product candidates; and the effects of COVID-19 on our clinical programs and business operations. We discuss many of these risks in greater detail under the heading "Risk Factors" contained in our quarterly report on Form 10-Q for the quarter ended March 31, 2020, filed with the Securities and Exchange Commission (SEC), and our other filings with the SEC. Any forward-looking statements that we make in this press release speak only as of the date of this press release. We assume no obligation to update our forward-looking statements whether as a result of new information, future events or otherwise, after the date of this press release.
